

# DERMEDICS™ ALOE VERA GEL

**Contains pure aloe vera extract!**

[skin detox + global beauty care]

**DERMEDICS™ ALOE VERA** is an innovative contact gel designed for aesthetic medicine purposes. It ensures the proper connection between electrodes, probes and the skin.

Gel is recommended for **anti-acne** treatments (to accelerate skin renewal, support skin detox and restore even complexion) and for **anti-aging** beauty treatments to restore a younger and healthier appearance of sensitive skin.

Recommended for skin of all ages.

## Overview

- Provides effective skin detox
- Supports and accelerates skin renewal
- Provides relief for reddened skin
- Calms inflammation post sun exposure
- Ideal for demanding or sensitive skin
- Lightens discolorations and restores even complexion
- Refreshes and deeply moisturises the skin
- Microbiologically pure
- With proper viscosity
