

MESOCAPIL

Broken Capillaries Solution

Strengthening serum for sensitive skin

DERMEDICS™ MESO CAPIL is a strengthening serum created for skins prone to broken capillaries, redness, puffiness and cellulite. It diminishes the cutaneous capillary hyper-permeability, improves vascular protection, supports in skin detoxification and restores a more youthful appearance.

CAPIL = short-cut from the word *capillaries*. Capillaries are the blood vessels which can cause redness on skin surface in a way of breaking caused by inflammation.
